Selecting a Library Database

- Go to the libraries’ homepage
- Mouse over Research Tools
- Click on Articles & Databases in the drop-down menu
- On the Articles & Databases page, click on view database by Name OR Subject
- If you click on view databases by Name, the databases will appear in alphabetical order in the listing below…
- If you click on view databases by Subject, the databases will be broken down into subject/department areas at Southwest Baptist University (Example: Athletic Training, Biology, Language & Literature)
- If you view databases by Subject, click on the subject that makes the most sense to you
- You will then view all of the databases that relate to your subject area
- To select a database that you think will work for your area, review the brief description of it
